

OUR STORY

Since 1984 Litchfield International has been serving the construction and design markets.

Litchfield International welcomes you to its new Hangerlok® line of thermoplastic, auto-locking pipe supports, and self locking conduit hangers. Litchfield International launches the entire Hangerlok product line from 3/8 inch through 4 inch diameters.

For nearly two years, Hangerlok larger diameter products have proven successful in markets served. Now is the opportunity to become involved in improved designs and materials made for critical and performance demanded projects.

The full line of our self-locking pipe supports and auto locking conduit supports are available. Be sure to call customer service at 888.443.3999 for your free Launch Kit or fill out the form on the website.

Be sure to read UL Standard 2239 Application for HangerLok.
